THE FRAMEWORK PROGRAMME

International Forum

"Chornobyl's Legacy for the Nuclear Safety of the World"

April 21, 2016	
9 ⁰⁰	Departure to the Pripjat city and acquaintance with the works in progress at Chornobyl NPP platform
April 22, 2016	
9 ⁰⁰ –10 ⁰⁰	Participants registration, Mass media registration
10 ⁰⁰ –10 ⁴⁵	Opening of the Forum
10 ⁴⁵ –11 ¹⁵	Conference Photo, interview to mass media
11 ¹⁵ –12 ¹⁵	First plenary session "CHERNOBYL'S LEGACY FOR HUMANITY: TECHNOLOGICAL, HUMANITARIAN AND INTERNATIONAL ASPECTS"
12 ¹⁵ –13 ¹⁵	Second plenary session "CHORNOBYL AND NEW STRATEGY OF THE WORLD NUCLEAR SAFETY".
13 ¹⁵ –14 ⁰⁰	Break
14 ⁰⁰ –15 ⁰⁰	Third plenary session "TASKS OF FINAL RESOLUTION OF STILL UNRESOLVED PROBLEMS OF DESTROYED CHERNOBYL'S UNIT №4".
15 ⁰⁰ –15 ⁴⁵	Fourth plenary session. CONCLUSION REMARKS. ADOPTION OF RECOMMENDATIONS OF THE FORUM. CLOSING OF THE FORUM.
April 23, 2016

International Forum
"Chornobyl's Legacy for the Nuclear Safety
of the World"

On April 26, 2016 it will be the 30th anniversary since the world community has known the name of Chornobyl, which became the synonym for a terrible technological disaster and tremendous ecological catastrophe on the global scale.

It was difficult 30 years of heroic exploit of a large number of people. The consequences of one of the largest technological disasters could realize the whole world that is why its 30th anniversary cannot be ignored.

Nowadays the Chornobyl Nuclear Power Plant does not work; the storehouse for nuclear waste is under construction. There is an active work on the building of a new safe confinement which will reliably isolate the destroyed power generating unit from surrounding environment. There is no doubt that in 2017 a new safe confinement will be constructed.

All these projects became feasible due to significant financial and technical support of the world community.

The next and the final stage of overcoming the consequences of Chornobyl disaster should be the development of infrastructure for processing of unstable structures and their dismantling, removal of fuel-containing materials from the "Shelter" Object and their safe burial. Considering that operational functionality of the "Shelter" Object is coming to the end in 2023 and taking into account its current condition, the work should be started without delay.

Unfortunately, today Ukraine is unable to solve these problems self-reliantly.

In 2016, it is planned to organize the International Forum "Chornobyl's Legacy for the Nuclear Safety of the World" in Ukraine involving wide circles of scientists, politicians and public representatives.

As the Forum coincides with on the date of the 30th anniversary of Chornobyl disaster, its including to the program of the issues of strengthening the nuclear safety in Ukraine and in the world and overcoming the consequences of the disaster will create the conditions for more active involvement of the world community in the process of solving the problems which are still not solved.

The Forum will provide an impetus for starting the discussion of a new phase of international cooperation, aimed at joint realization of activities on turning the "Shelter" Object into ecologically safe system.

Honorary co-chairmen of the Forum:

Leonid Kravchuk – President of Ukraine
1991-1994,
Leonid Kuchma – President of Ukraine
1994-2005.

Chairman of the Forum Program (Scientific)
Committee:

Borys Paton – President of NAS of Ukraine

Co-chairmen of the Forum
Scientific and Organizing Committee:

Mykhailo Zgurovsky – Rector of NTUU "KPI"

Igor Gramotkin – General Director of
SSE "Chornobyl NPP"

To participate in the Forum are invited:

representatives of governmental bodies of Ukraine,
international organizations, diplomatic corps, accredited in
Ukraine,
scientists, teachers, students, mass media

Working languages:

Ukrainian, English (Simultaneous translation)

Registration of participants:

To participate in the Forum it is necessary to be registered
preliminary.

Application forms should be sent to the Local organizing
committee.

Application Form
(for sending to the Local organizing committee)
of participant in
International Forum
"Chornobyl's Legacy
for the Nuclear Safety of the World"
